Travel Through Time

The Renaissance Academic Fair was an extraordinary demonstration of interdisciplinary learning. Students applied their skills through different expositions, which included: a wax museum, a fashion show, the evolution of the printing press, windmills and wind generators, among others. There was a strong spirit of learning, collaboration, and pride throughout the day on our campus. Many parents joined us, graciously to support the students and our community. The students enjoyed the whole process of taking an idea and bringing it to reality. A valuable experience for all!

What a great learning culture we have!
