The Trailblazer Award!

In Secondary, we now have a new distinction at BVS to acknowledge a student(s) dedicated to improving the world around them. The first winners of this award convinced Ms. Cisneros, Mr. Ronhaar, and Mr. Ulate to allow them to take a demanding additional science course as a means to fulfill STEM requirements for international university admissions. Through perseverance, our talented students successfully completed a weekly, three-hour course, after school during an entire year with rigorous summative and formative assessments. The seven recipients from 12A are (from left to right in the picture): José Leonardo Brenes, Elke Kopper, Nicole Proudfoot, Sebastián Schmack, Irina Kaminsky and Sergio Marín, as well as Alejandro Gerov (alumnus). Congratulations to our science trailblazers!
