Academic News

Ready for FS2018!

We are very proud of how our teachers have prepared their classrooms conducive to learning. Besides the beautiful and colorful displays that convey a lively climate, the setting is designed so that it inspires students to cooperate in each other's learning. Collaboration and teamwork are important skills to develop, but also peers can sometimes explain content matter in a different way than the teacher did. A discussion at the same age level can sometimes be more fruitful. Stop by to admire how your children will be happily learning this semester!

Forming Citizens

"Formando ciudadanos" will start next **Wednesday, August 1st**.

Traffic Safety

Parents have requested that we disconnect the quick-pass for those cars not following the rules, exposing the safety of the students and preventing a smooth transit flow. Please click [here](#) for traffic safety FS2018.

We changed Edmodo for Google Classroom

Google Classroom is a safe tool for communication and collaboration among teachers and students. This tool belongs to the school's domain inside Google Apps For Education and all students have access through their school's email. We will be sharing more information about parents access in the coming weeks. In elementary, Google classroom will substitute Weebly, but more gradually as we prepare students and their parents.
