New Dance Room!

BVS is committed to providing world class education by strengthening and enhancing the 3 pillars of Inspired. We are proud to offer high-quality teaching and top quality facilities. Visitors from Inspired!

Marianne Valentine is the Early Years Coordinator of Inspired.

She is visiting us from Reggio Emilia, Italy. Ms. Valentine is spending two days with the Early Learning School staff to guide them and teach them about the Reggio approach. It is a student centered and constructivist pedagogy, that uses self-directed experiences with the support of the adult to create relational connections.

Ms. Lucie Prior is the Head Teacher, Year 7 at Fulham Prep in London, a member of Inspired Education Group. She earned a Bachelor of Arts in English Language, Civilization and Literature from the University of Paris-East. She also completed a PGCE (Post Graduate Certification in Education) in London, and speaks 5 languages! Ms. Prior has spent the last two weeks at BVS, investigating our approach to language instruction and participating in a pilot program for global teacher exchange.

Connect Jr

This semester we will work with the Reggio Emilia approach to have the children explore, investigate and build upon their interests, manipulating concrete and appealing materials during the process.

Dance

Ms. Pamela Astorga is looking forward to working with the children and making her class as fun as possible, in a space where they can express their emotions, connect with their bodies, and be able to move around to explore and enjoy. At the same time, her objective is to provide a sense of discipline in the students' early years. They "will go around the world" to explore different rhythms, and dance styles and movements, always having fun as they learn.

Drama

Ms. María Montero is our Drama teacher in the Early Learning School. She wishes to encourage the children to connect with their emotions, learn to communicate eloquently, and enjoy themselves! She will guide them to explore and learn to use their bodies, voices and imagination to create new worlds.
